Experience

AI Systems Tester, OPPO Mobile Telecommunications Corp., Xi'an, China — Sept. 2024 - Dec. 2024

- Compiled 100+ labeled data samples for AI systems testing.
- Manipulated datasets to enhance AI model performance.
- Performed English-French translation to ensure linguistic and cultural accuracy.

Cashier, Local Convenience Store, Casablanca, Morocco — Jan. 2023 - May 2023

- Processed ~50 daily payment transactions efficiently and accurately.
- Provided courteous customer service to improve the shopping experience.
- Acted as the front-line representative, enhancing brand image.

Education

Beihang University-UN (RCSSTEAP), China, MSc in Space Technology Applications — Sept. 2025 - July 2027

- **Coursework:** Aerodynamics, Orbital Mechanics, Structures and Mechanisms, ADCS, OBDH, GNSS, Systems Engineering, Probability and Statistics, AI for science and engineering.

Northwestern Polytechnical University, China, BEng Aerospace Engineering — Sept. 2021 – July 2025

- **Coursework:** Aerodynamics, Rocket Propulsion, Orbital Mechanics, Guidance Navigation and Control (GN&C), Mechanical Design, Structural Analysis, Metalworking, Programming (C language).

Projects

Ground Station Design — Hangzhou — Sept. 2026 – Present

- Leading an international team to design and build the first ground station at Beihang University's new Hangzhou campus.
- Integrating UHF, VHF, and S-band communication frequencies for TT&C and payload data downlink.

Rocketry Summer School — Xi'an — July 2023

- Co-led a team of 6 students to design, assemble, and launch a small sounding rocket with deployable parachute.
- Tools Used: OpenRocket, BambuLab, LightBurn

NASA Space Apps Challenge — Casablanca — Oct. 2022

- Led a team of 5 students to First Prize by proposing an energy storage system to power a lander/rover in the harsh environment of Venus for at least 60 days.
- Tools Used: NASA Database, Excel, Fusion 360

Awards

Full Prize CSC Scholarship. — 2025 – 2027

Full Prize NPU Presidential Scholarship. — 2021 – 2025

Finalist Moroccan National Physics Olympiad (NPhO). — 2021

Skills	Languages	Activities
Microsoft Office (Word, Excel, PowerPoint) and LaTeX	Arabic: Native	Football
Python (NumPy, Pandas, PyTorch)	French: Advanced	Piano
MATLAB/Simulink/STK (GN&C)	English: Advanced	Chess
Autodesk Fusion 360 (CAD & FEA)	Chinese: Intermediate	Cinema
Gmsh; SU2; ParaView / StarCCM+ (CFD)	Spanish: Beginner	Traveling
